PROFILE

Full-stack developer with 1 Year of experience working across React.js frontend development and cloud-based data engineering using GCP. Passionate about building user-friendly web apps and scalable data solutions. Strong foundation in JavaScript, data pipelines, and cross-functional collaboration.

WORK EXPERIENCE

Fiscclouds

Frontend Developer

MAY 2024 - PRESENT

- Built responsive UI components using React.js, JavaScript, and Tailwind CSS.
- Developed internal tools to enhance team productivity and data visibility.
- Integrated APIs and implemented client-side logic for dynamic interfaces.
- Focused on performance optimization and user experience.

Associate Data Engineer

- Designed and deployed data pipelines using Google Cloud Data Fusion.
- Worked with BigQuery and GCS for secure and efficient data storage.
- Resolved pipeline errors, improving data accuracy and uptime.
- Delivered cloud-based data solutions for a banking sector client.

PROJECTS

EMPLOYEE TASK ASSIGNER

HTML, CSS, JAVASCRIPT, REACTJS, BOOTSTRAP

- Designed and developed a task management tool enabling managers to assign tasks, set deadlines, and track progress.
- Empowered employees to manage workloads, update status, and ensure timely, accountable task completion.

PASSWORD GENERATOR

[Link](#)

HTML, JAVASCRIPT, REACTJS, TAILWINDCSS

- Developed a secure, customizable password generator with options for length, complexity, and character sets.
- Enhanced security and user experience by enabling robust, flexible password creation to prevent unauthorized access.

MAKE MY ATTENDANCE

HTML, CSS, JAVASCRIPT

- Developed an attendance management platform for online classes, enabling teachers to create classes and track attendance efficiently.
- Streamlined attendance data accessibility, improving overall class administration and organization for educators.
